

UGLY CORNY

TOONTOWN AFTER DARK

This PDF contains information about this content pack, that may apply to you or your child. This content pack might be dark, but it contains no violent imagery or any type of 'horror' content. This pack wasn't created to try and scare people.

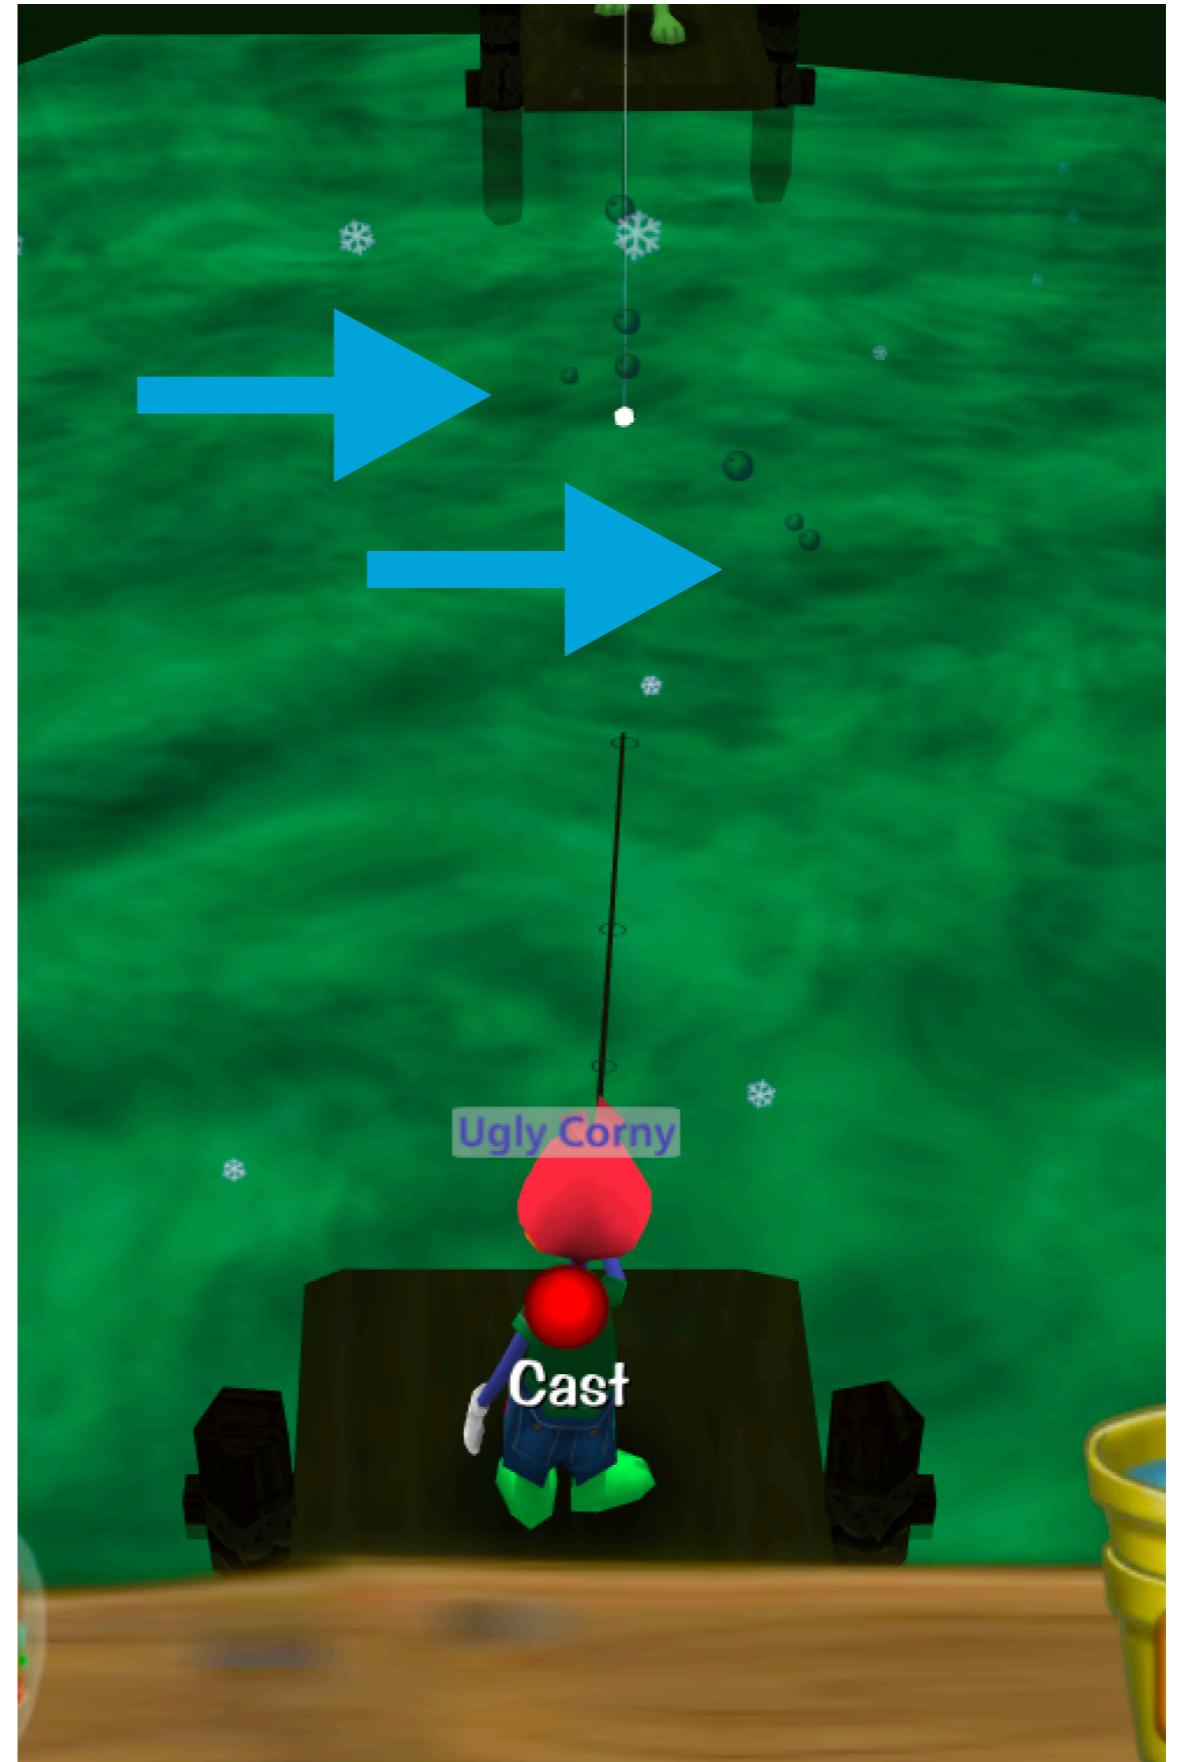

UGLY CORNY

Fishing

Fishing in this pack may be difficult. The pack is very dark.

Most fishing ponds have purposely been brightened for theming and visibility, but it still may be hard for some.

Make sure you turn your displays brightness up, or switch/remove the pack before you spend some time fishing.

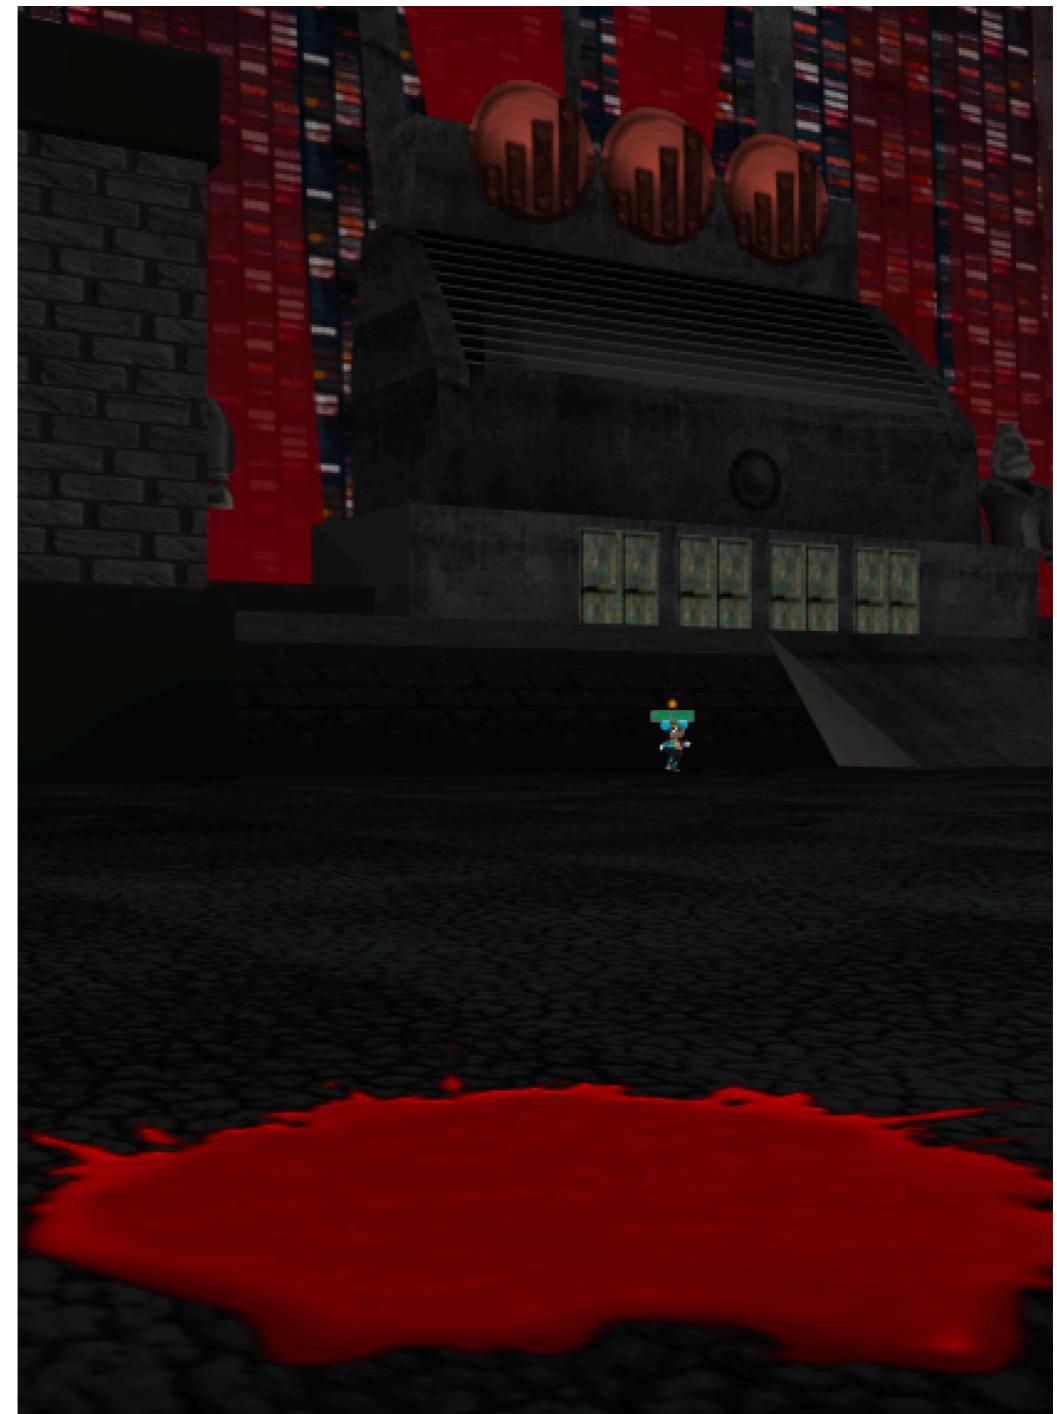

UGLY CORNY

Blood

Below this page will contain PICTURES of every single location within Toontown After Dark that has “red goop” (that looks like blood). Use this as a way to determine if the pretend blood can be tolerated by the player. There is never a clear idea why the red goop is there, no violence. Just decoration.

These buildings can be found in every playground
